SUMMARY

Computer Science Engineering student at SRM Institute of Science and Technology (CGPA: 9.20/10, graduating May 2027) with hands-on experience in developing full-stack web applications and integrating AI/ML models into modern software solutions. Proficient in building scalable, user-focused applications and leveraging speech and large language models to enhance functionality and user experience. Continuously exploring new technologies and committed to developing innovative, efficient, and impactful software solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript, C/C++, HTML, CSS

Backend & Distributed Systems: Node.js, Express.js, FastAPI, Flask, RabbitMQ, Redis, Socket.io, REST APIs, Docker

Frontend: React.js, Next.js, Bootstrap, EJS

Databases: PostgreSQL, MongoDB, SQLite

AI/ML & LLM: Scikit-learn, Pandas, NumPy, TensorFlow, LangChain, OpenAI Whisper, Hugging Face Transformers

Cloud & Tools: Google Cloud, Firebase, Vercel, Render, Streamlit, Git, GitHub, Claude Code CLI

EXPERIENCE

StarSnippets | Co-Founder & Content Creator

Mar 2024 – Mar 2025

Independent venture – content strategy, SEO, audience analytics

Remote

- Co-founded and grew a YouTube channel from **0 to 147,000+ subscribers in 12 months**, owning content strategy, SEO and thumbnail/title experimentation end to end.
- Built a repeatable production and publishing pipeline, using retention, click-through and audience-analytics data to iterate on formats and scheduling.

PROJECTS

Microservices Chat Application | *Node.js, TypeScript, RabbitMQ, Redis, Socket.io, MongoDB, Next.js* | [GitHub](#)

Mar 2026

- Designed a service-oriented architecture with three independently deployable services (Chat, User, Mail) communicating asynchronously over RabbitMQ, decoupling OTP delivery from the request path so authentication is never blocked by mail latency.
- Implemented real-time messaging, typing indicators and presence over Socket.io, backed by Redis for session storage and pub/sub fan-out across service instances.

ColabSphere | *Node.js, Express, React, Google Cloud Platform, Firebase* | [Live](#)

2026 – Present

- Building a collaboration platform that matches developers to open projects, with a Node/Express REST backend deployed on Google Cloud Platform and a Firebase-hosted React client.
- Implementing authentication, project-contributor matching and persistence against Firebase services.

AI Clipper & Caption Generator | *Python, Next.js, React, OpenAI Whisper, Gemini API* | [GitHub](#)

Jul 2025 – Nov 2025

- Built an end-to-end pipeline that transcribes long-form video with OpenAI Whisper, segments it, and passes candidate spans to the Google Gemini API to detect highlight-worthy moments.
- Generated platform-ready captions from the detected segments and exposed the workflow through a Next.js interface.

Customer Churn Prediction | *Python, Scikit-learn, Pandas, FastAPI, Streamlit* | [GitHub](#)

Mar 2026

- Trained a binary classifier to predict telecom customer churn, building reproducible preprocessing pipelines for label encoding and feature standardisation.
- Served the model behind a FastAPI endpoint with a Streamlit front end deployed publicly on Streamlit Community Cloud.

EDUCATION

SRM Institute of Science and Technology, Delhi NCR

Aug 2023 – May 2027

B.Tech, Computer Science and Engineering

St. Francis School, Indirapuram

CGPA: 9.20 / 10

CBSE Class XII (PCM): 82.8% | CBSE Class X: 88.5%

2021 – 2023

COMPETITIONS & HACKATHONS

Finalist – India AI Impact Buildathon, HCL GUVI (Feb 2026) [Link](#)

Participant – Adobe India Hackathon (Aug 2025) [Link](#) | Amazon ML Challenge 2025 (Oct 2025) | L'Oréal Sustainability Challenge 2025 (Oct 2025) [Link](#) | Guidewire DevTrails (Feb 2026)

CERTIFICATIONS

Natural Language Processing – NPTEL (May 2026) [Link](#) | Foundations of Coding Full-Stack – Microsoft (Jan 2026) [Link](#) |

Exploratory Data Analysis for ML – IBM (Feb 2026) [Link](#) | Python (Basic) – HackerRank (Oct 2024) [Link](#)

VOLUNTEERING

Dr. A.V. Baliga Memorial Trust – Volunteer, Education & Social Welfare (Jun 2025 – Jul 2025): supported educational programmes for at-risk children in Delhi.

Full Bowl Initiative – Student Volunteer, Animal Welfare (Mar 2025 – Present): campus feeding programme for community dogs; awareness and donation drives.
